Paris, 24 November 2020 – 8:30pm CET – Alchimie (the “Company”), an OTT (over the top) subscription video on demand (SVoD) platform featuring original and exclusive thematic channels published jointly with media groups and talents, announces the success of its initial public offering (the “IPO”) with a view to having its shares admitted to trading on the Euronext Growth® Paris multilateral trading facility.

“The operation was successfully carried out in the singular context of containment. This is the first IPO on Euronext Growth Paris whose placement was carried out entirely remotely using videoconferencing tools. This reflects investors’ confidence in Alchimie and its growth prospects, which are supported by the dynamic subscription video-on-demand market and, more specifically, the affinity thematic video segment, which is neglected by the sector’s largest players. This segment is seeing rapid growth, since it addresses demand from subscribers looking for content that is more closely aligned with their passions and interests. The IPO was an opportunity for us to highlight our novel business model, based on sharing value with all stakeholders, i.e. celebrities, rights owners and distributors, which aims to grow our content library and to support the regular launch of new channels in France and internationally at a reasonable cost. This growth momentum, which is already firmly established as recent channel launches show, is about to accelerate with the financial resources that we now have.”

We are now looking forward to entering into new partnerships with media groups and talents in order to expand our subscribers' base, i.e. the number of people subscribing to affinity thematic contents offered via Alchimie's SVOD channels. We expect the subscribers' base to grow rapidly to around 1.2 million by the end of 2022, which corresponds to a revenue target of €58 million. A new chapter in Alchimie's history begins today, and I would like to offer my sincere thanks to all of Alchimie's teams, our partners and our investors who have either just joined us or been with us for a while, for their support and enthusiasm", said Nicolas d'Hueppe, Chairman, CEO and founder of Alchimie.

Offering Price

Through the IPO, the Company carries out a capital increase of €17.9 million, including €0.1 million following the partial exercise of the primary extension clause. The Board of Directors of the Company has today set the IPO price at €16.20 per share (the "**Offering Price**").

Reasons for the offering: to accelerate Alchimie's growth and support its international expansion

- > Around 75% of the funds will be devoted to the Company's organic growth, mainly through recruitment to accelerate the pace of growth in SVoD channels in France and abroad, prioritising the English, French, Spanish and German language zones. The Company's objective is to accelerate quickly from launching one new channel per week in the fourth quarter of 2020 to more than three per week to reach a total of 210 channels by end-2022 and then a total of more than 600 channels by 2024.
- > Around 25% of the funds will be devoted to continue the Company's strategy of developing opportunistically via acquisitions.

Size of the Offering

The offering was fully subscribed and the primary extension clause was partially exercised in the amount of 5,043 new shares, i.e. €0.1 million.

1,102,135 new ordinary shares have been allotted as part of the offering, including 5,043 new ordinary shares in relation to the partial exercise of the primary extension clause. The total gross proceeds of the Company's capital increase amounted to €17.9 million.

The number of new ordinary shares allotted as part of the offering is broken down as follows:

- 785,007 new ordinary shares allotted as part of the international offering (the "**International Offering**"), representing €12.7 million or 71.2% of the total number of shares allotted; and
- 317,128 new ordinary shares allotted as part of the open price offering (the "**OPO**" and, together with the International Offering, the "**Offering**"), representing €5.1 million or 28.8% of the total number of shares allotted. Under the OPO, A1 orders (from 1 share up to and including 100 shares) and A2 orders (more than 100 shares) will be fully satisfied.

Based on the Offering Price and the issue of 1,102,135 new ordinary shares, including 5,043 new ordinary shares following the partial exercise of the primary extension clause, Alchimie's market capitalisation will amount to around €71.3 million after the transaction. The free float represents 24.33% of the Company's share capital.
